

NEW BOOK

Catalogue of Persis Coinage, Ca. 280 B.C. – A.D. 228

by P. A. van't Haaff

From August 31, 2020, the **Catalogue of Persis Coinage, Ca. 280 B.C. – A.D. 228** (Lancaster: CNG, 2020) is freely available in digital format. The book is subtitled “34 Kings of 5 dynasties that ruled in Iran for 500 years”. The author is our honored colleague Anne van't Haaff who unfortunately passed away in 2018.

After Susan Tyler-Smith's article “A parcel of Persis drachms, half drachms and obols,” in the *Numismatic Chronicle* (2004), and Statthalter *Rebellen Könige – Die Münzen aus Persepolis von Alexander dem Großen zu den Sasaniden* (Munich: Staatliche Münzsammlung, 2008) by Dietrich O. Klose and Wilhelm Müseler, everyone was anticipating the definitive book on Persis coinage by Anne van't Haaff. In 2010, his manuscript was submitted to CNG.

Unfortunately the publication date repeatedly slipped, then Anne passed away in December, 2018. CNG has now released the original manuscript and plans to publish an updated second edition with Scott VanHorn as co-author.
